Our last mental health rally was a huge success, with over 60 participants. But the crisis is not over!

Join us on May 14th for our third Mental Health Rally!

Following the rally, we will move inside to the Board of Supervisors meeting. If you are able, please stay to give public testimony opposing cuts to mental health. Say NO to cuts for RSTs, self-help services, housing, advocacy, supports, and client jobs. If the Board of Supervisors approve the current 2009/10 budget, over 4,500 clients will be without services. Let our voices be heard!
